

AUTOMATIC FLAT BED SCREEN PRINTING MACHINE

Model: YS-3088

Characters:

This series machine is designed for higher precision label printing. Machine is used imported components like automatic sensor and high-tech electronic components control system. The machine developed with print model micro-adjust system. The system cooperates with the automatic sensor can realize left/right Chromatography. Accuracy can be +/-0.05mm. It's our latest developed machine, equipped with double-side printing device and electronic-lifting screen frame, which bring the screen printing to a new stage. High temperature dryer can be added at the end of machine line. The color of image is very brilliant and has better color stableness. Many kinds of material, such as slicones and adhesive cement can have excellent effect on this machine

Technical parameters:

| Model | 2-color | 3-color | 4-color | 5-color | 6-color | 7-color | 8-color |
|---------------------|---|---------|---------|---------|---------|---------|---------|
| Print area | Length x width 600 x 300 (mm) | | | | | | |
| Print speed | 7m/min | | | | | | |
| Accuracy | 0.05mm | | | | | | |
| Material | Silk tape, Nylon tape, cotton tape, Herringbone tape, stiker tape, hot print tape, packing take | | | | | | |
| Voltage | 3phs, AC380V /50HZ (60HZ) | | | | | | |
| Power(KW) | 15 | 20 | 25 | 30 | 34.5 | 39.5 | 44 |
| Compressed air | Air pressure: 1Mpa, volume: > 1 m3 /min | | | | | | |
| Net weight(KGS) | 1500 | 2000 | 2500 | 3000 | 3500 | 4000 | 4500 |
| Machine length (mm) | 8800 | 12000 | 15200 | 18400 | 21600 | 24800 | 28000 |
| Width x height | 1100x1350 (mm) | | | | | | |
